

Urban Spaces Construction, LLC

March 16, 2016

Dear Neighbor:

I am writing to let you know that we will be setting and erecting the modular portion of our project at 1971 Mass Ave. starting on Monday 3/28/16. We expect this portion of the work to be complete by Friday 4/01/16. During this time frame there will be up to 38 tractor trailers with modular components being unloaded at the site. To do this it will be necessary to close off the portion of Allen St. closest to Mass Ave.

It should be very exciting to see the building go up, and as we have said before, this significantly speeds up the overall construction process.

What to expect during this phase of construction:

- During work hours 9:00am – 4:00 pm, Allen Street will be closed to through traffic but open to abutters. The street will become a 2 way street so that residents can enter and leave via Orchard St.
- Police detail(s) will be posted during these times
- Emergency vehicles will have access at all times and all city services will continue.
- “No Parking” signs will be posted; please be sure to check dates/times. Traffic signs and police details will be in place to assist neighbors.
- Pedestrian access and access into properties will be maintained at all times, but may be restricted in certain ways. All sidewalks will remain open.
- Residents will be allowed to come and go as they please
- Residents will still be allowed to park on the street.

Please contact us if you have any special need or disability that requires special accommodations

As always, feel free to contact me, senior construction manager Skip Rose (617) 438-6943 or project superintendent Brad Richards (617) 678-0027 with any questions or concerns.

Thank you for your patience and understanding.
